Principal Consultant*

Welcome Message

It is with great pleasure and pride that I extend a warm welcome to you on behalf of The Serenon Group Limited. At The Serenon Group Limited, we stand at the forefront of creating safe and healthy work environments. We understand the critical importance of a robust safety culture and the value of business continuity planning and the immense impact it has on not only the physical well-being of your team but also the overall success and sustainability of your organization.

With a wealth of experience spanning various industries and a passion for continuous improvement, our consultants are equipped to address the unique challenges and opportunities that your organization may encounter. Whether it's regulatory compliance, risk assessment, program development, or incident investigation, we bring a depth of knowledge that allows us to not only meet but exceed your expectations. We take immense pride in offering tailored solutions that not only adhere to industry standards but elevate them. Through open communication, collaboration, and a proactive approach, we aim to provide you with a consultancy experience that transcends the ordinary.

Thank you for considering us as your Occupational Safety and Health and Business Continuity consultancy. We eagerly anticipate the opportunity to serve you and embark on a journey towards a safer, more productive future together.

Warm regards,

Marise K. Johncilla

Core Values & Mission

Core Values

- Safety - We depend on it. We truly care about the safety and well being of people and we always behave as safety leaders
- People - People are the heart of our business
- Integrity - We consistently do the right thing to achieve the best results
- Relationships - We depend on healthy, mutually beneficial and goal oriented relationships with our customers and clients
- Passion - We are passionate about protecting the lives of workers and the environment

Mission

- We aim to inspire our Clients to adopt a proactive and disciplined approach to occupational health and safety and business continuity planning.
- We believe that safety and continuity of operations is the responsibility of all, and responsible leadership must commit to embedding this into all operations.
- We believe all workplace accidents, injuries and illnesses can be preventable and if they do occur they can provide immeasurable amounts of learning through fact-finding to ensure there are no recurrences.
- We believe that all business impacts can be planned for with minimum organisational disruption to ensure "business as usual".
- We believe that training and education is essential to provide all employees with the resources to work safely. Good safety training changes behaviour and creates a positive safety culture by putting people first.
